OF EMERGENCY SERVICES

SITUATION SUMMARY

Earthquake, San Leandro, Alameda County

- On 03/10/15 at 1007 hours, a verified 3.1 earthquake (EQ) occurred 1 mile NNE of San Leandro, Alameda County. Alameda County Warning Point (WP) reported that the EQ was felt, but there were no reports of injuries or damage.

Major Exercises in the Region

Diablo Canyon Drill, San Luis Obispo County

- On 3/11/15 the Diablo Canyon Power Plant (DCPP) in San Luis Obispo County is conducting a drill from 0800 until 1300 hours. The drill includes only DCPP and limited dose assessment staff from local and state agencies in order to train, evaluate procedures, and identify areas for improvement. The SOC and REOC are not participating. There will be notifications from DCPP to the California State Warning Center, which will exercise the Nuclear Power Plant Standard Operating Procedures for sending notifications to Cal OES duty officers and other state agencies.

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

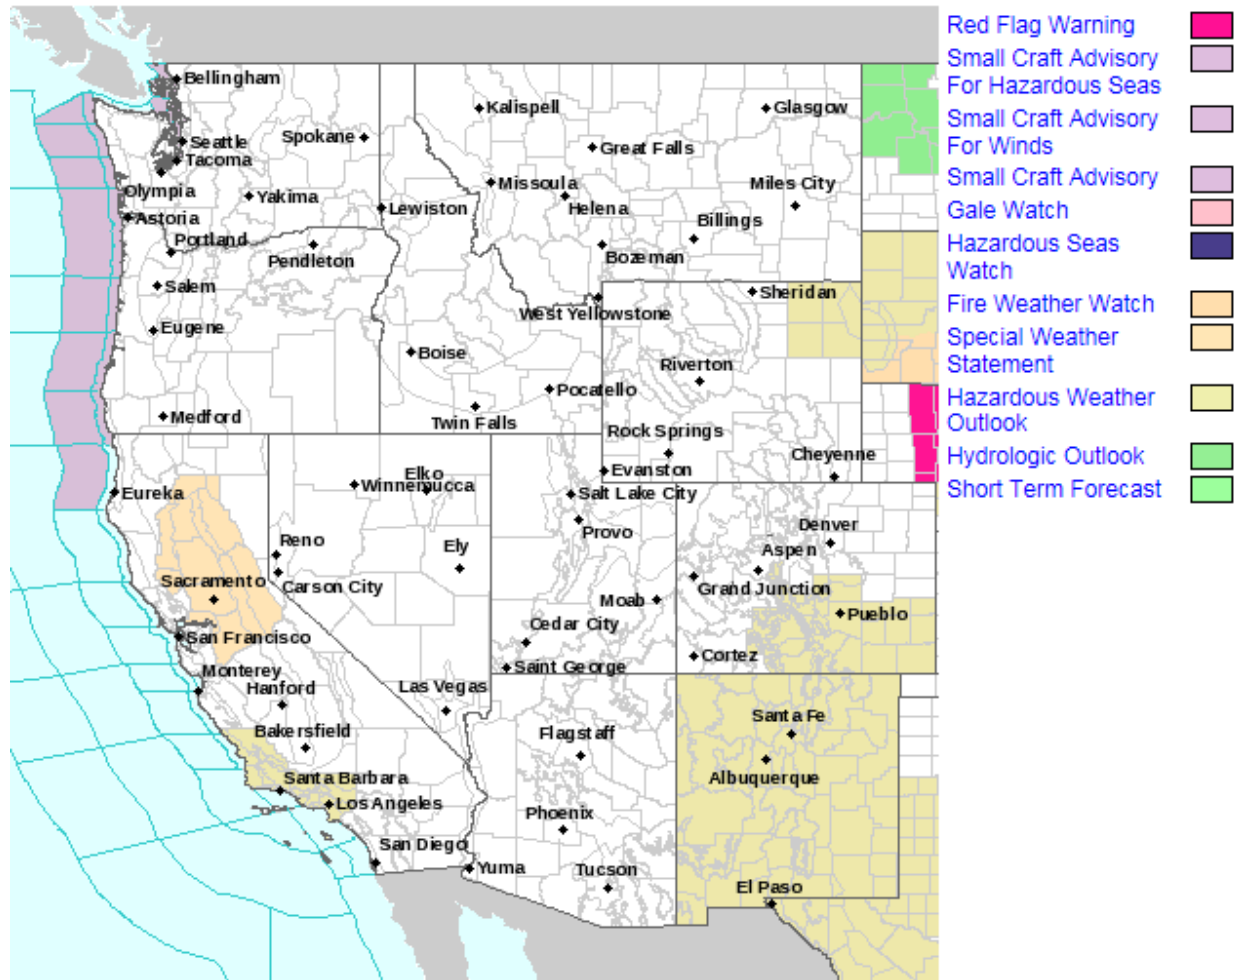

NORTHERN CALIFORNIA

The governing larger-scale weather pattern will adjust some today and Wednesday, leading to an unsettled, somewhat cooler, and occasionally cloudy pattern for Northern California over the next 5-7 days. The upper ridge axis is shifting east of the area this afternoon, which will allow for a more humid south to southwest flow pattern to move in from the Pacific. Two weather events will bring wetting rains to roughly the northwest half of the area: one from late tonight through early Thursday, and the other from late Saturday in the northwest, to a larger share of the area Sunday. There should be lighter precipitation, mostly non-wetting, in the southeast half of the area also, but some areas could be entirely missed and stay dry. Recently, maximum temperatures have been at or near record high levels for early March, but we will see a cooling trend today and Wednesday. After a plateau or slight warming again by Friday, the weekend system will bring about some further temperature drops. Look for humidity to moderate upward quite quickly in some of the northwestern areas by early Wednesday. Winds will be from the south-southeast to southwest for most areas over the next two days, generally light, but some moderate (10-20 mph, gusts 25-35 mph) over mid to higher terrain in the north and east. We go back to mostly light north to east winds for a time Thursday p.m. and Friday, before a return to south and southwest on the weekend.

SOUTHERN CALIFORNIA

Temperatures will warm a couple of degrees and humidity will decrease some as high pressure off the California Coast moves inland today. Maximum temperatures will be in the 60s to low 70s across the mountains and in the mid-70s to mid-80s in the valleys today. Minimum humidity will be in the single digits and teens away from the coastal areas and Central Valley today. The marine layer is below 1,000 feet deep this morning, with low clouds and fog only over the coastal areas. A weak Pacific trough will move inland over the West Coast causing temperatures to cool around 10 degrees and minimum humidity to increase to above 20% Wednesday. This trough will also bring scattered showers mainly to Central California with less than a quarter inch of rainfall Wednesday. Strong high pressure will move back over California Thursday through this weekend, with well above normal temperatures. Temperatures will reach record levels by this weekend, with low to mid-90s over the valleys of Southern California. Offshore winds of 20 to 30 mph with gusts to 50 mph will surface across the mountains and below the canyons and passes of Southern California Thursday morning through Saturday morning.

RECOVERY ACTIVITIES

Round Fire, Inyo and Mono Counties

- On 03/03/15, Recovery Individual Assistance (IA) staff conducted a joint County, Cal OES IA, and U.S. Small Business Administration Preliminary Damage Assessment. The damage assessment revealed at least 25 homes and/or businesses have uninsured losses of at least 40 percent of their value. Cal OES submitted a letter on behalf of Mono County to SBA requesting approval of a disaster declaration.
- The American Red Cross and Salvation Army continue to offer their support services.
- Recovery Debris Management Coordinator deployed to Mono County for debris management group meeting and site walk-through.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC, Inland, Coastal, and Southern REOCs and the Santa Barbara County EOC are activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued an Executive Order on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought. Specifically, through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate a monthly state interagency conference call regarding drought community impacts.
- Cal OES Regional (Inland, Coastal, Southern) conference calls continue to occur once a month.
- Cal OES Region/Recovery Call frequencies will change on and as needed basis.
- [A Program Manager and an Emergency Services Coordinator \(ESC\) will respond to Fresno for a drought meeting on 03/12/15.](#)

CAL OES MISSIONS

Cal OES Missions – Ongoing

- **2015-LAW-8802, 3/6/15 at 1330 hours** (reopened) - Yolo County SO has requested Underwater ROV and/or Dive team resources to assist in locating potential evidence in the homicide investigation of a 27 day old infant. LDO is coordinating with several agencies to assist with securing these resources in order to search a specific location of a slough. Update: 3/9/15: LDO secured Sacramento DART for dive operations today, 3/9/15. **Update:** 3/10/15 dive operations were suspended for yesterday, operations are scheduled for today, Yolo SO will advise when completed. **Mission Ongoing.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
